

## Walking 2 750 km towards an entrepreneurial mindset

**Nico de Klerk**

StreetBiz Foundation, South Africa

### Abstract

I come from the country of Elon Musk, Mark Shuttleworth and Trevor Noah! I come from the country of Nelson Mandela. We do like to share with the world what we are doing, trying to do, or what we are striving for. A country of experiments, especially in the social context, of victories, and many failures. You'll need a special insight into the effect and implications of a mindset often formed by a culture of dependency.

The Long Walk Project was "a gift to the mindset of all South Africans" and I trust it can also be a gift to the GEC 2019.

My work in South Africa has many facets. What conclusions can I draw from all of my experiences and research?

### Biography:

Dr Nico de Klerk is a social entrepreneur, public speaker, the founder and CEO of StreetBiz Foundation (non-profit company).

StreetBiz Foundation's aim is to innovatively address poverty, unemployment and inequality using technology, social networking and research.

Nico was the National and Southern African Coordinator for SAGE (a global youth entrepreneurship NGO) and guest speaker at the World Championships in Russia in 2014.
